Project Description

Description Frase (max. 500 characters):

Breaking barrier to education using online video technology.

Project Summary (max. 2000 characters):

Dominic Nsikan a serial social entrepreneur and the founder of TechClass Nigeria one of the fastest growing online video contents service providers for teachers and students in Northern Nigeria. My project utilizes the power of online video technology to provide top quality educational materials and real time online classes through YouTube and Skype to teachers in

Yobe, Maiduguri, Gombe, Damaturu, Zaria and other Boko Haram insurgence communities where there are little or no access to quality textbooks, training manuals and research facilities as a result of the over three years of continues destruction of educational facilities by the activities of the radical Islamic terrorist group Boko Haram.

How long has your project been running?

2011-01-30 23:00:00

Objectives and Innovative Aspects

TechClass Nigeria aims to bridge the barrier to quality education as the result of over three years of massive destruction to educational materials and facilities by the Islamic sect Boko Haram in northern part of Nigeria. This project aims to propel progress towards sustainable development in the area of education focusing its activities mainly in northern Nigeria before replicating it to other part of the country. TechClass utilizes quality online video-training for teachers and also providing them with access to over 2000 quality educational material online.

Results

Describe the results achieved by your project How do you measure (parameters) these. (max. 2000 characters):

Using our trained and quality and bombings northern education gap by cr them with learning c communi into learn enrollmen involved i online cla competi

How many users interact with your project monthly and what are the preferred forms of interaction? (max. 500 characters):

TechClas of registe teachers month en

Sustainability

What is the full duration of your project (from beginning to end)?: From 1 to 3 years

What is the approximate total budget for your project (in Euro)?: From 10.001 to 30.000 Euro

What is the source of funding for your project?: Sponsorships

Is your project economically self sufficient now?: No

When is it expected to become self-sufficient?: 2015-01-30 23:00:00

Transferability

Has your project been replicated/adapted elsewhere?: No

What lessons can others learn from your project? (max. 1500 characters):

Youths across the world towards sustainable development processes most especially done first by asking our framework on education step in holding their various implementing sustainable Nonprofit organizations another innovative way development. Advocacy tools to enforce sustainable

Are you available to help others to start or work on similar projects?: Yes

Background Information

Barriers and Solutions (max. 1000 characters): The major challenge facing our project is the constant provide distant learning to teachers and students in remote areas due to the destruction of internet facilities by the terrorist group. This situation halts our reach out activities to schools in remote areas. To overcome these short comings and the frequent attacks of internet facilities, we use most of our resources materials, textbooks and training materials to various schools authorities.

Future plans and wish list (max. 750 characters): Our project anticipates continuing to propel progress in the area of education. We hope to continue to partner with various organizations across Nigeria in developing programs for quality education. We are targeting to spread our activities to reach and achieve the desired transformation in the education system for children to enroll and succeed in school. TechClass is addressing key challenges and obstacles that hinder learning and how they can have access to quality education and empowering themselves.
