The students will all reach excellent results at international level if the schools achieve the maximum inclusion (Tullio De Mauro).

Tullio De Mauro's message is not only strongly contemporary but also visionary, and it represents what we should aspire to in order to improve the educational system. At the Global Junior Challenge 2021 we want to share the vision and message of Fondazione Mondo Digitale for youths and for the community, bringing some examples of quality education, giving a voice to all the internal and external actors who animate it in light of contemporary challenges. Because it is not only within the walls of the school that we contribute to the overall growth of each individual.

The 10th edition is dedicated to the innovative and inclusive use of new technologies for quality education during the Covid-19 emergency. A large exhibition hall will be set up for the finalist projects, with conferences, workshops, activities for students and teachers. The awards ceremony will be held on **December 17nd 2021 at the prestigious Giulio Cesare Hall in Campidoglio (tbc)**.

We are working to define the schedule and the modalities of the final event, according to the evolution of the ongoing pandemic involving all countries.
