06/11/2012 - 10:32

Global food shortage will become the greatest crisis in the near future. We need to educate the students to treasure what we have, to maintain our environment and keep it going. In order to improve our health, we need to be aware of using chemicals, and save our food source. Respect the food and use recycling system to create a non-chemical life. Using ICT collaboration, we collect more teachers and students to work for our organic garden dream.
