Platform **DOC.A.T.**, ^[1] developed by Prof. Michele at the Liceo **Sofonisba Anguissola** ^[2] in Cremona, will participate in the **Global Junior Challenge** ^[3] in the “Up to 29 years old” Category.

DOC.A.T. was conceived to manage the “transparent administration” section of school websites and help school managers and administrators to draft the documents required by the Law on transparency. The platform provides video tutorials, monitoring tools and management tools for the PON, as well as a module generator to draft documents.

DOC.A.T. was developed to provide a versatile digital resource that can be constantly updated in relation to ministerial decrees and user needs.

The DOC.A.T. Project test has no limitations in terms of users.
