**Descrizione del progetto/Describe the project :** In each class, there are few students which are very are struggling. As a maths teacher, I came up with the project in which the students will learn the other ones. The main activity of the project is that the students learn what it means to be a mathematics expert in their class in the same school or in another school. Initial goal is to create a class in which the students become experts in solving exercises and then they will teach their colleagues from the other schools. Parents are also invited to present their field of activity and the applicability of mathematics in these areas. Children learn about different professions in a practical way. They will understand that mathematics is something you do it with pleasure. The activity aims at improving the relationships, as well as improving their mathematics skills.
