Descrizione del progetto

Description Frase (max. 500 characters):

Twinbus Travel Agency is an eTwinning project. It was a interdisciplinary project so it involved several study objects: Art, Foreign Languages, Geography, History, Informatics / ICT, Language and Literature, Mathematics / Geometry, Media Education, Technology. The main aim of the Project is learning about important places to visit in project's partner countries

Project Summary (max. 2000 characters):

The aim of the Project is learning about important places to visit in project's partner countries.

The students present to their partners typical or important places for their country, capitals, places for spending holidays, places they live. They also learn about history, legends, food, monuments, typical architecture for chosen places. They create a virtual travel agency and as travel agents they want to attract partners-travelers to visit their country. The students also plan a trip to the partner's country, ask for suggestions and ,,go" a virtual trip.They learn how to find information on the Internet for developing their critical thinking and learning skills. Students works in groups, so they can develop their social skills, communication and problem solving.
Beside that they became familiar with ICt and different web 2.0 tools.
We decided to choose tools familiar to our student (PPT, Google Docs, PictureTrail, zondle) to let them create their own materials for the project and for school subjects as well. Using of particular ICT tools was very important for us and we discussed them before using when we started to plan the project. Every time we focus on aesthetic of created materials, so we used tools they could help us achieve this aim.

Da quando è funzionante il vostro progetto?

2013-08-30 22:00:00

Obiettivi ed elementi di innovazione

To exchange information about children's living places, to practice their communication and collaboration skills, to work in group, to improve their emotional intelligence skill, to prove critical thinking and autonomy, to become familiar and attracted with other European cultures and enhance the understanding and knowledge of them, to encourage pupils to learn to know and respect each other, to broaden minds due to online cooperation between the schools, to develop the entrepreneurial skills.
The project was a good opportunity for the students involved to accomplish the pedagogical aims. All the materials and products uploaded on the blog prove this.
